DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

Species 1: fibrous cellulose component of wood fibers

Species 2: fibrous cellulose component of fiber pile

Species 3: fibrous cellulose component of chip wash solids

Species 4: fibrous cellulose component of fiber waste

Species 5: fibrous cellulose component of wood fiber fines

Species 6: fibrous cellulose component of sawdust

Species 7: fibrous cellulose component of wood flour

Species 8: fibrous cellulose component of wood dust

Species 9: fibrous cellulose component of sander fines

Species 10: binding agent of petroleum oil

Species 11: binding agent of mineral oil

Species 12: binding agent of mineral seal oil

Species 13: binding agent of vegetable oil

Species 11: binding agent of soybean oil

Species 12: binding agent of a soap product

Species 13: binding agent of a detergent

Species 14: an absorbent comprising 59% fibrous cellulose, 40% particulate cellulose, and 1% binding agent

Species 15: an absorbent comprising 24.5% fibrous cellulose, 24.5% particulate cellulose, 50% rice hulls, and 1% binding agent

Species 16: absorbing petroleum

Species 17: absorbing petroleum derivatives

Species 18: absorbing hydraulic oil

Species 19: absorbing grease

Species 20: absorbing gasoline

Species 21: absorbing diesel

Species 22: absorbing anti-freeze

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 1 is generic to species 1-9, 14, and 15. Claim 11 is generic to species 10-13, and claim 64 is generic to species 16-22.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims

are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

2. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jacqueline F Stephens whose telephone number is (703) 308-8320. The examiner can normally be reached on Monday-Friday 9:00-5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dennis Ruhl can be reached on (703)308-2262. The fax phone numbers
